## Education

---

**Bachelor of Computer Science**, University of Cincinnati Expected 2026  
**Relevant Courses:** Intro to C++, Digital Design, Info Security & Assurance, Discrete Structures, Python Programming, Intro to Computer Systems, and Data Structures

## Skills

---

**Technical Skills:** Python, C#, C++, ASP.Net, FORTRAN, HTML, JavaScript, CSS, React, Node.js, Express.js, MySQL, PostgreSQL, MongoDB, Git, GitHub  
**Soft Skills:** Problem Solving, Adaptability, Critical Thinking, Time Management

## Experience

---

**Co-op Rotation** May. 2024 - Aug. 2024  
Self-Study Cincinnati, OH

- Developed a comprehensive understanding of JavaScript, React, Node.js, Express.js, PostgreSQL, MongoDB, and full-stack web development through self-guided courses and hands-on projects.
- Created a personal portfolio website using HTML, CSS, and JavaScript to showcase my projects and skills.
- Built a dynamic web application using React for the front-end and Node.js/Express for the back-end, with MongoDB as the database.

**Co-op Rotation** Jan. 2023 - Dec. 2023  
Cleveland Cliffs Middletown, OH

- Implemented website enhancements to optimize steel production efficiency, showcasing skills in feature implementation, analytical skills, and quality assurance.
- Utilized Python, ASP.Net, HTML, and C++ to develop and deploy solutions.
- Developed profound expertise in the steel-making process, enhancing comprehension of production workflows.
- Collaborated closely with the manager to design and develop a delay table, streamlining the process of line engineers collecting data from the cold mill picklers.

**Engineering Researcher** Apr. 2022 - Aug. 2022  
University of Cincinnati Cincinnati, OH

- Demonstrated adaptability by quickly learning new technologies and successfully navigating evolving software applications.
- Utilized FORTRAN to write and modify code related to VEDA (Virtual Environment for Dynamic Atomic Force Microscopy), showcasing proficiency in programming languages.
- Collaborated closely with a professor to troubleshoot, debug, and meet project deadlines, actively contributing to the development of VEDA.

## Projects

---

**Personal Portfolio** June 2024

- Built a responsive personal portfolio website to showcase projects and skills.
- Utilized HTML, CSS, JavaScript, and Bootstrap for the front-end development.
- Implemented contact forms and project galleries, enhancing user interaction.

**Media Rater** July 2024

- Developed a versatile JavaScript/C++ application to create, modify, and delete media entries.
- Integrated a personal SQL database to store media entries securely and efficiently.
- Enabled seamless integration of various forms of media into a dynamic ranking system.
- Designed user-friendly interfaces for curating and managing content with ease.
- Ensured efficient data handling and retrieval through optimized SQL queries.
